Job Vacancies

### Bar Manager

We are looking for an experienced Bar person to join our talented team.

An interesting role with scope to really make your mark.

Busy bar, restaurant, and function room with its own bar. You will also oversee the cellar.

We sell a selection of cask ales, draft beer and cider so looking after the lines and condition of these is important.

You will ensure all these areas are clean and tidy. Ensuring we are compliant, and our exacting standard of cleanliness is maintained.

We stock an extensive range of gins and spirits along with a good wine list. We would expect you to be knowledgeable with a flair for serving drinks appropriately, upselling and always being conscious of profit margins.

We are hoping you will pass on your knowledge and help bring younger members of the team on to become good bar people too.

As with all good hospitality roles the salary is competitive, and there will always be new opportunities in the future. (It also means that evenings and weekends will be part of your Rota!)

### Restaurant Supervisor

We are looking for a conscientious and confident person to join our talented team. Experience is essential – however we expect you to grow within the role.

You will lead by example. So must be smart in appearance, punctual and focused.

As well as delivering great customer service daily you will train and mentor the team.

Working with our Front of House Manager you will implement best practices regarding cleanliness and compliance.

As with all supervisory roles in this industry your rota will include weekends and evenings. As a key holder you will have the responsibility of lock ups too.

We are a friendly team, always busy and this varied role can be extremely rewarding.

Part Time/Casual Staff

To assist with fluctuations, we require additional team players. This is ideal if you need flexibility.

Must be over eighteen as you will be serving on the bar as well as waiting on and serving functions.
